CHRISTOPHER MARCELLUS

CYBERSECURITY ENGINEER

(631) 707-1526 • Christopherjm625@gmail.com • Coram, NY 11727

Hardworking cybersecurity engineer with expertise in threat analysis, intrusion detection, and network security protocols. Skilled in implementing robust security measures, conducting vulnerability assessments, and ensuring compliance with industry standards. Adept at using tools such as SIEM, firewalls, and antivirus software to protect sensitive data and minimize risks. Brings solid work ethic and strong attention to detail to role of Cybersecurity Engineer, ensuring secure and efficient systems.

EXPERIENCE

SEP '24 - PRESENT

Code Coach | TheCoderSchool, Syosset, NY

- Facilitated coding sessions to build programming skills among participants.
- Utilized collaborative tools for communication and project tracking during workshops.
- Documented progress and challenges to enhance future coaching sessions.
- Improved participant engagement by adapting lessons based on feedback and observations.
- Developed team-building exercises to promote unity and collaboration.

MAY '24 - AUG '24

Software Engineering Intern | AlphaPrimeTech

- Developed and maintained full-stack web applications
- Collaborated on debugging and deployment
- Improved performance and usability
- Developed software applications for project management and task tracking.
- Conducted testing and troubleshooting to identify software vulnerabilities.
- Identified software bugs, contributing to enhanced application performance.
- Demonstrated ability to design, develop and test software applications using Java.
- Documented all stages of the software development life cycle including design, implementation, testing, deployment.

MAY '24 - JAN '25

Lead Event Coordinator | New York Party Works

- Managed event logistics and teams
- Strengthened leadership and communication skills

EDUCATION

DEC '25

Bachelor of Arts in Computer Science

Hofstra University

SKILLS

Python | Java | C++ | JavaScript | SIEM | Network Analysis / Packet Sniffing | Endpoint Detection & Response | Vulnerability Scanning | Threat Intelligence & Monitoring | Cloud Security | Wazuh | Splunk | Wireshark | CrowdStrike Falcon | Nessus | Metasploit | Burp Suite | Nmap | Kali Linux | AWS

CERTIFICATIONS

Algorithms & Data Structures - FreeCodeCamp | Cybersecurity Certification - W3Schools
